

ASHRAE at Humber

ASHRAE Mission

To advance the arts and sciences of heating, ventilating, air conditioning and refrigerating to serve humanity and promote a sustainable world

On October 27th 2011 the members of Humber's ASHRAE chapter met to celebrate the recent Charter of the Student Branch acquired on June 27th, 2011. With 35 student members in attendance and support from the local Toronto Branch, the meeting provided insight into the history of the Chapter as well as what ASHRAE has to offer to its student members.

The newly founded chapter will host regular monthly meetings to provide educational and industry guidance as well as support initiatives designed to advance HVAC&R research and related sciences. ASHRAE is well recognized within HVAC and Sustainable Energy Industry, with many companies supporting employee membership to the organization.

The Humber College student branch of ASHRAE will use the industry connections within the organization to organize field trips and capitalize on the networking and research opportunities that are part of the culture that is ASHRAE.

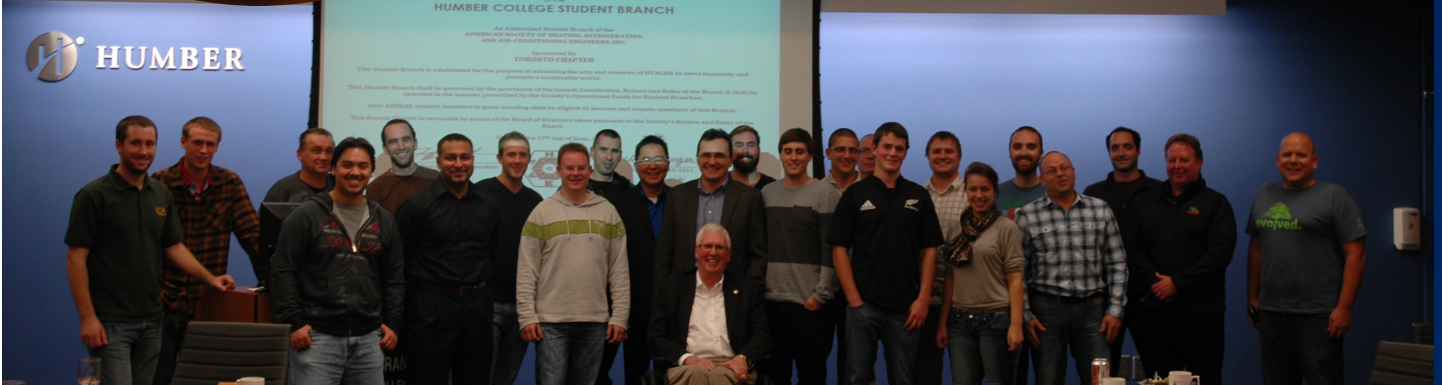

If you are interested in becoming a member of the student chapter here at Humber please contact Dragos Paraschiv at dragos.paraschiv@humber.ca

ASHRAE Vision
ASHRAE will be the global leader, the foremost source of technical and educational information, and the primary provider of opportunity for professional growth in the arts and sciences of heating, ventilating, air conditioning and refrigerating
